Education

Texas State University *Bachelor of Science in Computer Science and Data Analytics*

Class of 2028

GPA: 3.70, Dean's List

Texas State Merit Scholarship (Full Tuition), Honor Student

Relevant Courses: Calculus I & II, Discrete Mathematics I& II, Data Structures

Technical Skills

Programming Languages: C++, Java, Python, R, JavaScript

Web Development: HTML, CSS, React.js, Node.js

Software: Unity, VS Code, Git

Operating Systems: Mac, Linux, Windows

Teaching & Tutoring Experience

Instructional Support, Texas State University (Peer Tutoring)

Aug 2024 – Present

- Assisted peers in understanding course material in Calculus, Discrete Math, and Programming.
- Supported students with homework questions and test prep during informal study sessions.
- Maintained confidentiality of academic records and encouraged a respectful learning environment.

Personal Experience

Data Science and Machine Learning Workshop Participant, ITSNP

Jul 2023

- Completed a 20-day workshop on Data Science and Machine Learning in collaboration with SkillShikshya and Vrit Technologies.
- Gained hands-on experience in Python for data analysis, machine learning models, and data visualization.
- Developed a capstone project using predictive analytics.

Freelance Web Developer

May 2023 – Aug 2024

- Designed and developed small websites using HTML, CSS, and JavaScript.
- Collaborated with clients to enhance user experience and site performance.

Leadership

Project Leader, Datathon and Open Hackathon

2023 – 2024

- Led a team of 5 in a Datathon, focusing on predictive modeling with real-world data.
- Delegated tasks effectively and ensured on-time project delivery.

Volunteer Mentor, Coding Workshops

2022 – 2023

- Conducted beginner-level workshops on data structures and algorithms.
- Provided guidance and feedback to help peers strengthen CS fundamentals.

Certifications

Introduction to Python for Data Science Certificate

2024

Introduction to Data Analytics

2023

Leadership in Action Certificate

2020
